*"Incisive slide playing."  
"A fine songwriter."  
Blues Revue Magazine*

**Subject matter ranges from familiar tales of love lost, a bona fide ghost story, the plight of the American factory worker, to life in a mythical town.**

Featuring: Rick Randlett on vocals, lap steel and pedal steel  
Kellen Vincent on vocals and guitar  
Mitch Rogers on vocals, bass and keys  
Lance Spano on drums

*"He sings in an enjoyably rough-hewn voice that at times sounds like the bastard son of Tom Waits and Peter Mulvey singing songs written by JJ Cale"*

*"Randlett is an impressive guitarist who handles guitar, dobro, and lap steel duties."*

Rhys Williams Blues Blast Magazine

Rick Randlett first discovered the blues in college during the 1970's. First influenced by the initial wave of British blues rockers he began to study the originators of the style. A move to Florida in the 1980's led to gigs with country artists and now songs by Johnny Cash and Hank Williams sit comfortably in his show along with songs by Robert Johnson and Big Bill Broonzy.

Along with guitar and vocals, Rick is known for his lap steel work, and that instrument along with slide guitar and pedal steel all make appearances on the stage.

Rick has released five CD's, three of which have reached the top ten on the Roots Music Report blues charts. Check Rick out on YouTube, Spotify, and iTunes and make plans to take in a live show soon!
